PROFESSIONAL SUMMARY

Entry-level IT Support and Networking professional with BCA degree and technical training from NIIT Foundation. Strong foundation in TCP/IP, OSI model, subnetting, Windows administration, and hardware troubleshooting. Hands-on experience with Cisco Packet Tracer labs, Linux command line operations, and desktop support troubleshooting. Currently preparing for CCNA certification and seeking opportunities in Network Support, NOC, or IT Infrastructure roles.

TECHNICAL SKILLS

NETWORKING

- TCP/IP
- OSI Model
- IP Addressing & Subnetting
- DHCP / DNS
- Network Troubleshooting

OPERATING SYSTEMS

- Windows 10/11 Administration
- Linux (Ubuntu, CentOS)

IT Support

- Desktop Troubleshooting
- OS Installation
- Hardware Diagnostics
- Printer & Peripheral Support

Tools

- Cisco Packet Tracer
- Remote Desktop
- Command Line Utilities

SOFT SKILLS

- Problem Solving
- Customer Service
- Communication
- Technical Documentation
- Team Collaboration

PROFESSIONAL EXPERIENCE

IT/Network Trainee

NIIT Foundation (Wipro-Aligned Training Program)

Apr 2025 – oct 2025

Chhindwara, Madhya Pradesh

- Hands-on training in networking fundamentals including TCP/IP, OSI model, IP addressing, subnetting, DHCP, and DNS.
- Practical experience with Windows administration, OS installation, and desktop troubleshooting.
- Performed network simulations and troubleshooting labs using Cisco Packet Tracer.
- Practiced Linux command line operations and basic system administration tasks.
- Learned incident handling, ticket documentation, and troubleshooting workflows.

Computer Operator (Front-End Office)

Hero Automobile Showroom

Jan 2024 – Jun 2024

Amarwara, Madhya Pradesh

- Provided first-level technical support for desktop systems, printers, and network connectivity
- Troubleshoot hardware and software issues to ensure smooth daily operations
- Managed data entry and digital records for business operations
- Assisted users with Windows applications and system configuration
- Documented issues and coordinated with vendors for advanced troubleshooting

EDUCATION

Bachelor of Computer Applications (BCA)

Jul 2022 – May 2025

Sony Computer Education

Chhindwara, Madhya Pradesh

- Relevant Coursework: Computer Networks, Operating Systems, Database Management Systems, Data Structures, System Administration, Computer Hardware, Software Engineering
- Academic Focus: Built strong theoretical foundation in computing principles, networking protocols, and system architecture supporting practical IT support application

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

TCS Youth Employee Program – Professional Development and IT Skills Enhancement

Professional Edge & IT Professional Etiquette – Business Communication and Workplace Professionalism

Program in Cyber Awareness & AI Basics – Security Fundamentals and Emerging Technologies

CCITN – Networking & hardware Fundamentals Training

CCNA – Currently Preparing

TRAINING PROJECTS & PRACTICAL LAB WORK

Windows Desktop Support Laboratory | *Training Lab Environment* 2025

- Practiced Windows 10/11 installation, configuration, and troubleshooting in simulated desktop support scenarios
- Performed hardware component diagnosis, driver installation, peripheral configuration, and system optimization exercises
- Gained practical exposure to user account management, group policies, permission settings, and basic Active Directory concepts

Network Configuration & Troubleshooting | *Cisco Packet Tracer Lab* 2025

- Designed and configured network topologies with routers, switches, and end devices practicing IP addressing schemes and subnetting
- Implemented DHCP and DNS configurations in lab environment and practiced connectivity troubleshooting using diagnostic tools
- Learned systematic approach to network problem diagnosis using ping, ipconfig, tracert, arp, and nslookup commands

Linux System Administration Practice | *Ubuntu/CentOS Lab Environment* 2025

- Practiced Linux command-line operations including file system navigation, user management, and basic system administration tasks
- Gained exposure to shell scripting fundamentals, process monitoring, and service management through guided lab exercises

KEY STRENGTHS & ATTRIBUTES

Technical Aptitude: Quick learner with strong analytical skills and systematic approach to problem-solving

Customer Focus: Demonstrated ability to communicate technical concepts clearly to non-technical audiences

Adaptability: Proven ability to learn new technologies quickly and apply knowledge in practical scenarios

Work Ethic: Self-motivated with strong commitment to continuous learning and professional development
